- 8" COMMERCIAL SERIES LOUDSPEAKERS (ECONOMICAL COST, AVERAGE PERFORMANCE)
- 25 VOLT, 5 WATT CENTER TAPED LINE MATCHING TRANSFORMER
- LOW COST, HIGH QUALITY BAFFLES (GRILLS)
- COMPLETELY ASSEMBLED SPEAKER / TRANSFORMER / BAFFLE, 10 PER CARTON
- ALL STEEL BAFFLE (GRILL)

Arnsco'tt's School Series speaker assemblies are the perfect match for voice communications in all school conditions that are requiring voice communications. The whole assembly is priced for value, although quality is of our first concern. The speakers are available in both 6 & 10 oz. Magnet size. The transformer is a 25 Volt, 5 Watt, center taped type. The baffles come in either round or square, both made of 20 gauge cold rolled steel, with 4 weld studs, and a speaker white powder coated finish.

See the chart below to make your own custom part number.

Speaker Combinations Available:

Part Number	Description	Code for Assembly
A860E	8" 6oz. Voice range, dual cone, 8-ohm, 12 Watts RMS	86
A895WK	8" 10oz. Music range, dual cone, 8-ohm, 12 Watts RMS	895
A25-5L	Audio transformer, 5 Watt, 25 Volt, center taped, with leads	225L
G11W	12-3/4" round baffle, speaker white, welded studs, 20Ga. CRS	11
G25W	12-1/2" square baffle, speaker white, welded studs, 20Ga. CRS	25

How to Create Your Assembly

All of these parts fit each other. To create a part number with the combination of your choice, Simply add the abbreviated product codes together in the following way:

Speaker Code - Transformer Code - Baffle Code

Example: 86-225L-11

A860E + A25-5L + G11W
