ARCHITECTS AND ENGINEERS SPECIFICATIONS

MODELS "SM" SERIES

The wall boxes shall be **AEG Models, as listed above**. The units shall be constructed from 20 Gauge CRS. The mounting centers shall be 8.3cm (3 9/32"). Custom configurations other than the above are available. The finish on these units is off white, low gloss powder paint. These surface mount wall boxes are possible up to 10 gang length(custom over 2 gang). Stainless steel plates that will fit these boxes are the **Arnscott WP Series**(see technical note on Arnscott WP Series). AEG has a new "D" Series wall plate that will fit these boxes, and allow mixing and matching of controls in any configuration. Custom plates, including materials, finishes, and punched holes are obtainable, please submit drawings for evaluation. These surface mount wall boxes shall be used wherever single or multiple gang wall boxes are required. Specify **AEG "SM"** Series for all your projects.
