ARCHITECTS AND ENGINEERS SPECIFICATIONS

MODELS SE45W (Surface Mount)

The ceiling backbox shall be AEG Model SE45W. The backbox shall be constructed of heavy gauge steel and shall be painted with white powder paint. Combination 1/2" - 3/4" knockouts for conduit shall be provided. The unit shall measure 14cm (5 1/2") square, and have a maximum depth of 8.9cm (3.5"). This unit shall be used wherever surface ceiling or wall mount conditions exist. This unit can be mounted directly onto concrete. This unit has the back completely closed, allowing the containment of wiring and is equipped with a ground screw. This unit is U.L.C. approved for use with a voice fire alarm system. The backbox shall accommodate AEG baffle Model G72W.
